Members Meet-up; An open Invitation

On 20th of March, 2019 all the members of Young Bees Club had attended a meeting in the presence of the founder and co-founder. The club vision and mission was shared with all the members. The founder of the club shared his personal views of creating the group. According to him, "The Club aims to promote reading among the young generation". By the end of the meeting, it is announced that the next meeting will be held on 30th of March 2019. It is an open invitation for all the members that they can join the meet-up and share their views about the group.

Book Review; The Sun is also a Star

It is an amazing book written by Nicola Yoon. It has received many positive reviews soon after its launch. The young people will find it as a clever, funny, heart-touching and full of adventures. However, there is so much to get inspiration from the book. It is about a young talented illegal immigrant girl who is soon going to be deported from the United States along with her family. The second leading character of the book is a young guy who is fond of poetry and writes poetry.

The book has highlighted an immense love between two characters of having opposite interests. Moreover, it also informs about the difficulties of the immigrants who have very limited opportunities in a foreign land. A very simple language is used in the book. Moreover, there is a lot of science in the book that reminds of the science we study at Schools. Overall, it is an interesting book to read in the 21st century.

Good News for Junior Readers

Feeling the need of book reading, Young Bees Club wants to build the reading habits among young kids of Age Group 3-6. The Club has started a junior's membership. Many colorful story books and comics are collected for the junior members. At the same time, the Club Founder is hopeful that all the parents of young kids will cooperate with the club to bring their children. Moreover, with the help other sponsors the Club is also arranging workshops and seminars for the parents to develop the reading habits among the young age children. Under the same project different activities will be arranged for the junior readers. The aim of this project is to make reading fun for the upcoming generation.
